Highlights of financial reports received by the FIU in 2016 are provided below. Strategic analysis of financial reports received during 2016 is provided in the strategic analysis section of this Annual Report.

Suspicious Transaction Reports

The FIU received 579 STRs in 2016 or an average of just over 48 STRs per month. This reflects an increase of 12 percent compared to 516 STRs reported to the FIU in 2015.

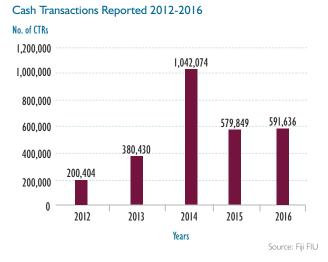

Suspicious Transactions Reported 2012-2016

Financial institutions are required under section 14 of the FTR Act and section 24 of the FTR Regulations to report suspicious transactions to the FIU. A suspicious transaction is a transaction or attempted transaction which a financial institution has reasonable grounds to suspect may be related to a "serious offence, a money laundering offence or an offence of the financing of terrorism".

Cash Transaction Reports

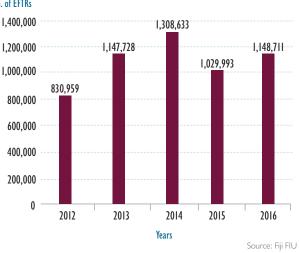

The FIU received 591,636 CTRs in 2016 or an average of around 49,303 CTRs per month. This is an increase of two percent compared to 579,849 CTRs reported to the FIU in 2015.

Financial institutions are required under section 13(1) of the FTR Act and section 25 of the FTR Regulations to report to the FIU any cash transaction of \$10,000 and above or its equivalent in foreign currency. Cash includes coin or paper money, bank drafts, bank cheques, bearer bonds, travelers cheques, postal notes and money orders.

Electronic Funds Transfer Reports

The FIU received 1,148,711 EFTRs in 2016 or an average of around 95,726 per month. This is an increase of 12 percent compared to 1,029,993 EFTRs reported to the FIU in 2015. The increase in the number of EFTRs received in 2016 is largely due to a substantial increase in the volume of remittances undertaken using the mobile phone money remittance sector. This is due to opening up of new corridor for inward remittances by one of the mobile phone companies and significant increases in the volume of transfers from other traditional sending countries such as Germany, Canada, Sweden and Cyprus.

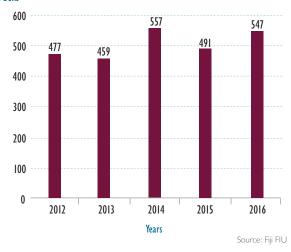

Electronic Funds Transfer Transactions Reported 2012-2016 No. of EFTRs

Commercial banks and remittance service providers (including mobile phone money remitters) are required under section 13(2) of the FTR Act and section 26 of the FTR Regulations to report to the FIU all international electronic fund transfer transactions. There is no monetary threshold for EFTRs

Border Currency Reports

In 2016, the FIU received 547 BCRs. This is an increase of over 11 percent compared to 491 BCRs received in 2015. There were more declarations made by outbound travellers compared to inbound travellers.

Border Currency Declarations 2012-2016 No. of BCRs

Under section 32 of the FTR Act, travellers into or out of Fiji must declare if they are carrying currency or negotiable bearer instruments of \$10,000 or more (or its equivalent in foreign currency).

FIUs Reporting and Intelligence Development

As required under section 25(1) of the FTR Act, the FIU is required to analyse and assess all reports and information that it receives. The FIU uses tactical analysis procedures as set out in its standard operating procedures to analyse all STRs and develop intelligence of possible money laundering or other serious offences.

Other reports received by the FIU such as the CTRs and EFTRS while not analysed in detail, provide critical information which is used to analyse STRs. During 2016, the FIU continued to use FFIMSO in its intelligence processes. The FIU used its Alert and Monitoring System (AMS) which monitors all financial transaction reports maintained on the FFIMSO database for suspicious transactions. The FIU also continued to use a Data Mining System (DMS) to analyse financial transaction data captured in the FFIMSO database. The DMS identifies links, relationships and patterns of suspicious financial activities. The AMS and DMS proactively identifies suspicious transactions and reports this weekly to FIU analysts for their further analysis.

The BCRs are collected by FRCA and sent to the FIU for data mining and analysis for possible currency smuggling, money laundering and related criminal offences.

FIU Enquiries with Financial Institutions

As part of its analysis process, the FIU makes enquiries with financial institutions. The queries are aimed at developing further intelligence on information already provided on the STRs. FIU queries may also be in relation to an ongoing investigation of money laundering offence or proceeds of crime case. The FIU has powers to obtain information from relevant financial institutions under section 14(3) and section 25(1) (h) of the FTR Act.

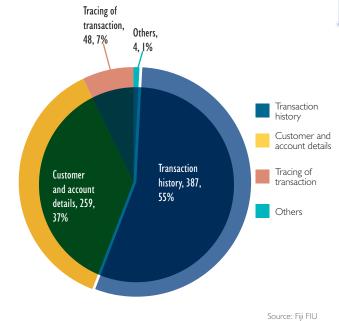

In 2016, a total of 464 queries for further information were made by the FIU to commercial banks (86 percent) and other financial institutions (14 percent).

B. DISSEMINATION OF FINANCIAL INTELLIGENCE

Intelligence Reports to Law Enforcement Agencies

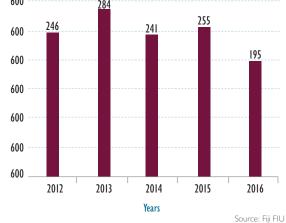

Disseminating financial intelligence to law enforcement agencies is a core function of the FIU. Financial intelligence enables our law enforcement partners to investigate predicate crimes, money laundering and terrorist financing activities. Furthermore, it provides a basis for prosecution of persons where necessary.

The FIU's intelligence reports also provide profiling of suspected proceeds of crime and proceeds linked to tax evasion.

The FIU analyses suspicious transaction and other financial transaction information to develop intelligence.

The results of the FIU's analysis of STRs are disseminated to relevant law enforcement agencies in a case dissemination report (CDR).

In 2016, 195 CDRs were referred to law enforcement agencies compared to 255 CDRs in 2015¹. The CDRs were developed from reports of suspicious transactions received in 2016 and prior to 2016.

Case Dissemination Reports to Law Enforcement Agencies 2012-2016

Law Enforcement Agency and Reason for Dissemination	2012	2013	2014	2015	2016
FRCA- Inland Revenue Services Possible violations under the Income Tax Act and VAT Decree.	168	176	155	166	83

Others ²	5	22	10	20	37
TOTAL	246	284	241	255	195

Source: Fiji FIU

In 2016, 49 percent of the CDRs were disseminated to FRCA while 30 percent of the CDRs were disseminated to the Fiji Police Force. Intelligence that is developed from a single STR is sent in some instances to more than one law enforcement agency as it may involve suspected violations of different laws.

The FIU also, after detailed analysis, filed away 284 STRs during 2016 for future intelligence references compared to 515 STRs in 2015. STRs are filed away for future intelligence references and analysis, if after analysis and intelligence gathering, the FIU is able to reasonably conclude that the transaction or information does not involve a money laundering or other serious offence.

¹ Due to strict confidentiality requirements, this annual report does not discuss details of cases currently being investigated as a result of the FIU's intelligence. Cases that involved proceeds of crime that were subject to monitoring, restraining, confiscation or forfeiture orders as a result of FIU's intelligence are also not mentioned in this report. Convictions of money laundering and proceeds of crime cases have been published as case studies and have been included in the FIU Strategic Analysis Report.

 $^{\rm 2}$ Other Law Enforcement Agencies include the Reserve Bank of Fiji and foreign law enforcement agencies.

Alert Notices to Financial Institutions

From time to time, the FIU may need to disseminate alerts or directives to financial institutions in relation to information it has received under the FTR Act.

The FIU issues Alert Notices to financial institutions, in order to protect the financial system from being used by adversely reported individuals and business entities. An Alert Notice contains information on adversely reported individuals and/ or business entities that require enhanced due diligence and scrutiny by financial institutions.

Due to the sensitivity and confidentiality of the Alert Notice, financial institutions are advised to circulate the Alert Notices internally with caution.

There were 14 such Alert Notices issued by the FIU in 2016 and these involved 41 individuals and one entity. There were five Alert Notices that related to individuals suspected to be linked to possible advance fee fraud.

Directives to Financial Institutions

The FIU has powers under section 25(1)(h) of the FTR Act to issue directives to financial institutions to take appropriate steps in relation to any information or report received by the FIU and to enforce compliance with the FTR Act or facilitate any investigation anticipated by the FIU or a law enforcement agency.

The FIU issued only one such directive in 2016 to a commercial bank. The directive issued was in relation to the following:

- i. undertaking enhanced due diligence on customers;
- ii. establishing source of funds;
- ascertain the ultimate destination of any subsequent withdrawal transaction(s);

- v. seek approval in writing of the FIU before proceeding with any transaction(s).

The FIU also uses directives to temporarily suspend a transaction until the customer provides all necessary information to the financial institution as stipulated in the directive, consistent with the customer due diligence requirements under the FTR Act and Regulations. Section 7 of the FTR Act and section 19(3)(c) of the FTR Regulations requires financial institutions to not proceed any further with a transaction unless directed to do so in writing by the FIU.

The FIU also provides assistance to law enforcement agencies upon request. The request for assistance from the law enforcement agencies are received in writing and are related to investigations of suspected money laundering activities and other predicate offences such as forgery and fraud, drug trafficking/ dealing, human trafficking, obtaining money by false pretences, larceny and corruption.

The requests may also be related to investigations initiated by a FIU CDR disseminated to a law enforcement agency.

The FIU received 213 requests in 2016 compared to 191 requests in 2015 from local law enforcement agencies (such as the Fiji Police Force, Fiji Independent Commission Against Corruption (FICAC), Department of Immigration, Transnational Crime Unit and FRCA.

Dissemination of Information to Foreign FIUs

The FIU receives requests for information from foreign FIUs. In 2016, the FIU received 16 requests for information from foreign FIUs through the Egmont Group secure web network and other formal communication compared to 22 requests received in 2015.

Due Diligence

The FIU provides assistance to conduct background and due diligence checks on individuals and entities upon a request made in writing from a Government department or authority. Requesting agencies are required to fill out the FIU request form and provide relevant details on the individuals and businesses that are under scrutiny.

In 2016, the FIU received 41 requests for background and credibility checks compared to 27 requests in 2015. The checks were conducted on 106 entities and 80 individuals.

C. SUPPORTING AND SUPERVISING FINANCIAL INSTITUTIONS

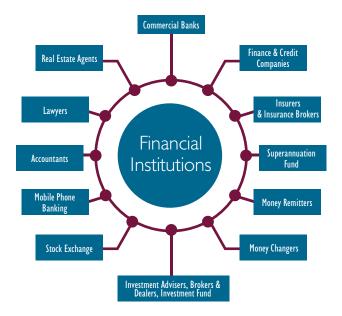

The FIU promotes a "risk-based" approach to implementing the FTR Act and provides guidance to financial institutions to comply through issuance of policies and provision of training.

The requirements in the FTR Act, commonly referred to as "preventive measures" are based on international AML/ CFT standards, the Financial Action Task Force (FATF) Recommendations.

Entities and businesses that are required to comply with the requirements of the FTR Act include:

- i. financial institutions such as, commercial banks, insurance companies and intermediaries, finance companies, money remitters, money changers, investment advisors, brokers and dealers, unit trust or managed funds, mobile phone banking service providers; and
- ii. other designated non-financial businesses and professions (DNFBPs) such as, accounting firms, law firms, real estate agents or businesses.

All entities and businesses that are covered by the FTR Act are referred to as "financial institutions" under the law.

AML Guidelines and Policy Advisories

The FIU continued to work closely with financial institutions during 2016 to implement the requirements of the FTR Act and Regulations. These requirements aim to prevent or detect money laundering and terrorist financing activities within Fiji's financial system.

The FIU provides financial institutions with advice and guidance on the requirements under the FTR Act and Regulations. These advisories and guidelines are aimed at helping financial institutions gain a better understanding of their obligations under the laws. Appendix I lists the Guidelines issued by the FIU to date. The Guidelines provide detailed guidance on the requirements under the FTR Act relating to suspicious transaction reporting, cash transaction reporting and customer identification and verification.

Appendix 2 lists the Policy Advisories issued to date by the FIU. These Policy Advisories address very specific issues relating to the FTR Act.

The FIU also provides policy advice on an ad-hoc basis, as and when requested by financial institutions. In 2016, the FIU issued 21 ad-hoc policy advisories explaining various requirements of the FTR Act and Regulations.

To ensure consistent application and understanding of FTR requirements across all the covered financial institutions, the FIU disseminates its policy advisories to all the institutions.

Supervision of Financial Institutions for Compliance with the FTR Act

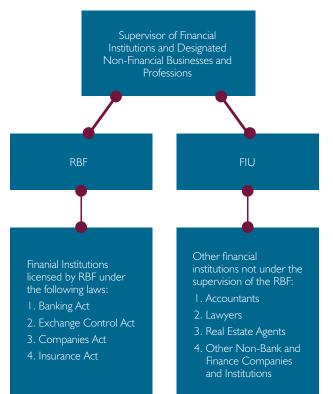

The FIU and RBF are required under the FTR Act to supervise and ensure that financial institutions are compliant with the FTR Act and Regulations.

The FIU conducted onsite compliance visits of two accounting firms and two law firms during the year. The objective of these onsite visits was to assess how well these entities were complying with their obligations under the FTR Act. The FIU also embarked on a program to engage with the real estate sector to facilitate their compliance with the FTR Act. This was achieved by conducting two series of trainings for the real estate agents and formally writing to each registered agent to raise awareness on their obligations under the FTR Act.

Also during 2016, the FIU continued with its offsite examination and review of online transaction reporting and record keeping obligations of financial institutions in Fiji. The FIU also conducted offsite assessments of financial institutions' compliance with reporting requirements using its alert monitoring system.

The FIU provided policy advice to RBF supervisors as and when needed on AML/CFT compliance issues. The FIU also provided assistance to the RBF on AML/CFT section of the on-site examinations of RBF licensed financial institutions.

AML/CFT Supervision

Training and Awareness Programs for Financial Institutions

In 2016, the FIU provided training to financial institutions which was attended by 320 employees. Two of these trainings were organised by professional bodies for their registered members, in particular, the Fiji Institute of Accountants and the Real Estate Agents Licensing Board. The training covered the financial institutions' obligations under the FTR Act and Regulations. The FIU was also invited to present at other organisations such as the University of the South Pacific.

The FIU also provided induction briefings for new AML Compliance officers to inform them of their role and key obligations under the FTR Act. This briefing was attended by 22 AML Compliance officers.

The National AML Council held three meetings during 2016 and its work was supported by the three AML Working Groups (Refer to section on National AML Council for more information).

The Director FIU is a member of the National AML Council and participated in the Council's activities for 2016. Other FIU staff also actively contributed to the work of the AML Working Groups.

Key initiatives for the National AML Council in 2016 were the finalisation of Fiji's mutual evaluation report and the utilisation of the Forfeited Assets Fund.

The FIU also liaised with the APG on behalf of the Council on the face-to-face meeting with the APG assessment team in early 2016 to discuss the draft findings of the team and on the finalisation of Fiji's mutual evaluation report.

The FIU also provided advice during the year to the Council on FATF's global survey on terrorism financing, its impact on Fiji and how the legal gaps identified by FATF could be addressed.

The FIU also provided regular updates to the National AML Council on the progress of these two important national projects.

Fiji's Mutual Evaluation

Fiji's mutual evaluation report was finalised during 2016 and tabled at the APG Annual Meeting which was held during the year. The FIU was involved in the finalisation of the mutual evaluation report and its preparation for tabling and publication.

The mutual evaluation report outline the findings of assessment

held in 2015 of Fiji's compliance with the international AML/ CFT standards, the Financial Action Task Force (FATF) Recommendations.

The mutual evaluation report provides key gaps and deficiencies for Fiji to address. These include, among others: (1) revisions of current laws such as the FTR Act, Proceeds of Crime Act, Public Order Act, Extradition Act, and Police Act; (2) seeking additional powers for law enforcement agencies and strengthening the resources of key government agencies such as the Fiji Police Force; and (3) enhancing preventive measures particularly for lawyers, accountants and real estate agents.

Meeting with the APG assessment team during finalisation of Fiji's mutual evaluation report.

Following the tabling and publication of Fiji's mutual evaluation report, the FIU formally wrote to all key government and private sector stakeholders to inform them of the outcomes of Fiji's mutual evaluation. The FIU also briefed the Attorney-General and Minister for Justice on the outcomes of the APG mutual evaluation report.

The FIU has started a review of the FTR Act and Regulations to address deficiencies identified in the mutual evaluation report. The FIU is also working with the National AML Council to develop a national strategy for implementing the recommendations outlined in the mutual evaluation report. This work will continue in 2017. The FIU also briefed the Minister for Justice on the outcomes of the APG mutual evaluation report.

During 2016, the FIU signed an MOA for the exchange of information with the Fijian Elections Office. This brings to 11 the total number of MOAs that the FIU has signed with local partner agencies.

With the closure of the Data Bureau Ltd during the year, the FIU no longer has any active information exchanges with this entity.

Seconded Officers to the FIU

In 2016, authorised officers from FRCA and FICAC continued to access directly the FIU database for the purpose of gathering intelligence on persons or entities of interest who are subject to their investigations. This arrangement was provided under MOAs signed with FRCA and FICAC.

Three officers from the FIU's partner agencies continued to be seconded with the FIU during 2016 as provided under the MOA arrangement. Two of the seconded officers are from FRCA and one officer is from the Fiji Police Force.

Secondment Officers from left: Salote Yanuyanutawa (FRCA); Amitesh Lal (FRCA); Jale Raguru (FPF).

NCLASA

The Director of the FIU is a member of the National Combined Law and Security Agencies (NCLASA) Committee. NCLASA is Fiji's national information sharing framework on security issues comprising approximately 38 agencies with the Ministry of Defence as the epicentre. The NCLASA framework is to inevitably provide appropriate responses to the security challenges, domestically and internationally, and to create a conducive environment for co-operation and information sharing between members of Agencies.

The FIU was part of the consultations held with the Ministry of Defence to review the national security and defence sector. The Director participated in the meetings and deliberation of NCLASA during the year.

Unexplained Wealth Taskforce

Association of Pacific Island FIUs

The Fiji FIU is a member of the Association of Pacific Island FIUs (APIFIU). APIFIU was established in 2011 and currently has 12 FIUs as its members namely the FIUs of Cook Islands, Fiji, Nauru, Niue, Palau, Papua New Guinea, Republic of Marshall Islands, Samoa, Solomon Islands, Tonga, Vanuatu and Kiribati.

Under the APIFIU regional cooperation program, the Fiji FIU provided one week work attachment during 2016 for officers from the FIUs of the Cook Islands, Marshall Islands, Papua New Guinea and Vanuatu. The objective of the attachment was to strengthen capacity building and enhance knowledge of participating FIU's experience which they can implement or adapt to their own systems and processes when they return home.

The officers studied the daily operations of the Fiji FIU and had an opportunity to visit a local law enforcement agency and a financial institution to get an idea of the intelligence, networking and regulatory role the FIU has in Fiji.

The attachment program was jointly supported by the United Nations Pacific Regional Anti-Corruption Project, implemented by the United Nations Development Program Pacific Office in Fiji and the UNODC.

The FIU also provided advice during the year to regional FIUs on various aspects of Fiji's AML/CFT framework.
